

## Installing the Adobe Reader

Install an Adobe Acrobat Reader from one of the following websites,

<http://www.adobe.com/products/acrobat/readstep2.html>

Please follow the instructions shown on the website, Choose your language, platform and connection speed and download the free software.

Please note that the Adobe Reader software is regularly updated by Adobe, and support for new platforms is added. For more details about the updates, please visit [www.adobe.com](http://www.adobe.com).

After you have installed a reader, please open the file *|cdmenu.pdf* in the root directory of this CDROM to access all available information.
